

4th Grade Newsletter for Week of April 20 – April 24, 2020

4th Graders are doing a fabulous job with their online schooling. Please make sure your child is working on their weekly plans and submitting their work. Please read below for grading clarifications and work submission.

Grading: Starting the week ending 4/13, teachers started inputting a reading grade and a math grade each week.

How will grades be calculated? -- Students will receive either an **S** (Satisfactory) or **I** (incomplete) based on the work that they do during the course of that week.

How do teachers determine the aforementioned grade and know if your child is doing work? -
- Good question! Here are a few ways that you are welcome to use to share work—Please do what works best for you:

- 1) Upload** work to Teams (This is a fabulous way for us to see it and give immediate feedback)
- 2)** scan/email PDFs to your teacher
- 3) Upload** PDFs to a folder & have student upload that folder to One Drive and share the folder with their teacher.
- 4)** Take a picture or video of your child working/ email or text it to their teacher.
- 5) PLEASE** refrain from sending more than one email in a day to your teacher. Include all work completed for that day into one email.

If you need help in sharing your child's work with their teacher, please reach out to them! We know your kids are working hard and that times are tough right now, so whatever we can do to support you in this endeavor, please do not hesitate to get in touch with us.

If students receive an “I” for work that has not been completed or turned in, they can still submit work late and the teacher can change it to an “S” when completed.

Keep up the GOOD WORK!! We miss you!!
